OUR STORY

Since its inception, GRIPPS® has been dedicated to eliminating critical risks and saving worker's lives, through the implementation of innovative tool tethering and dropped object prevention solutions.

As the leader in tool tethering and falling object prevention, we work closely with partners across a wide range of sectors, engineering solutions that ensure their workforce safely returns home after each shift.

Designed and built for the harshest environments, offering superior safety, durability, practicality and functionality, the GRIPPS® range of products helps thousands of workers, globally, every day.

GRIPPS® has become well-known for delivering long-lasting, premium quality, innovative height safety equipment to customers worldwide.

We pride ourselves in the relationships we build with our customers and always guarantee complete satisfaction and trust in the GRIPPS® range of products.

OUR MISSION

ELIMINATING CRITICAL RISKS AND SAVING WORKERS' LIVES.

INDUSTRY INNOVATORS

COLLABORATION

The GRIPPS® Industry Innovators program was created to enhance our relationship with customers.

Made up of trusted trade professionals, this group provides invaluable input on every new product prior to its market release.

Emphasising innovation, functionality, and practicality, GRIPPS® has forged partnerships within industry to develop a diverse range of long-lasting, premium quality, and innovative height safety solutions.

INNOVATION

The GRIPPS® product range undergoes continuous development - some products are entirely new engineered solutions, while others undergo updates.

Whether it's a revolutionary innovation or an evolutionary improvement, our focus always begins with the customer.

Through collaborative efforts, we strive to mitigate critical risks and ultimately save workers' lives.

CONQUER GRAVITY TOGETHER

Work confidently at heights, assured that your tools are securely tethered with world-leading equipment from GRIPPS®.

Engineered for the most demanding environments, GRIPPS® products excel in safety, durability, and practicality.

Our commitment to understanding the needs of those working at heights guarantees that our range of products is uniquely tailored to at-height tasks and can be seamlessly integrated into projects worldwide.

TOOL TETHERING AND FALLING OBJECT PREVENTION TRAINING

Whether you're managing a small team or overseeing several hundred workers, GRIPPS® offers the flexibility and resources necessary to ensure your workforce is well-trained in essential tool tethering and drop prevention safety measures.

Our course is designed to provide workers with an understanding of the potentially life-threatening risks associated with dropped objects, along with effective strategies to mitigate these dangers on worksites. Suitable for beginners without prior experience in tool tethering, our course equips your workforce with firsthand knowledge of industry-leading practices for tool tethering safety.

MODULES

MODULE 1
Dropped object risk awareness

MODULE 2
Dropped object risk assessment and the hierarchy of controls

MODULE 3
Working with tools at height

MODULE 4
Tool tethering using the GRIPPS® CATTE methodology

MODULE 5
The GRIPPS® product range and correct use

ELEVATE YOUR WORKPLACE SAFETY WITH GRIPPS® RESOURCES

Empower your team with the knowledge and tools they need to prevent falling objects and ensure a safer work environment. GRIPPS® offers a curated collection of training materials, including catalogues, user guides, posters, and videos, all designed to simplify and enhance your tool tethering and drop prevention strategies. With safety and practicality at the core of every resource, GRIPPS® helps you build a culture of safety that protects your workforce and boosts productivity. Visit our website to discover items such as:

- **GRIPPS® Product Directory**
- **GRIPPS® Tool Tether User Guide**
- **GRIPPS® Falling Object Prevention Plan**
- **GRIPPS® Tool Tether Process Chart**
- **GRIPPS® Posters**
- **GRIPPS® Checklists**

VISIT GRIPPS® RESOURCES PAGE
Discover our drop prevention solutions! Scan the QR to download our latest catalogues today!

Built with a focus on practicality and effectiveness, GRIPPS® resources are an essential component of any robust tool tethering and drop prevention strategy. Whether you're enhancing your safety protocols or educating your workforce, our expertly developed materials seamlessly integrate into your safety initiatives, helping you create a safer, more productive work environment.

LEARN THE GRIPPS® METHOD:

CATTE: THE EFFECTIVE WAY TO STOP DROPS.

The GRIPPS® CATTE Methodology is an effective system for ensuring safe tool tethering. The acronym stands for CONNECT, ANCHOR, TETHER, TRANSPORT, and ENCAPSULATE providing a framework for proper implementation.

STEP 1

C CONNECT ▸

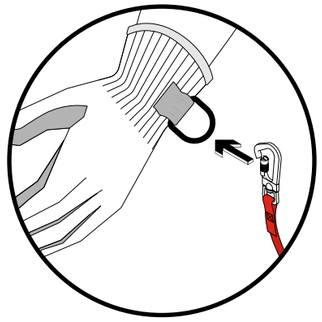

1.) Attach a connection point to your tool that matches the appropriate load rating and is suitable for both the task at hand and your work environment.

STEP 2

A ANCHOR ▸

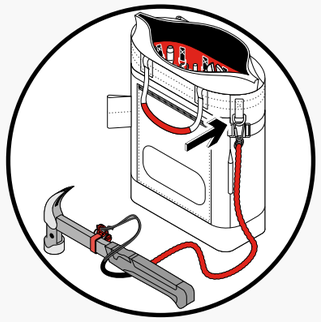

1.) Identify the anchor point suitable for the weight of your tool that will be securely fastened. Consider options such as a load-rated work belt, wrist anchor, or tool bag.
2.) Alternatively, use the structure or equipment in use, provided it offers a suitable anchor point.

STEP 3

T TETHER ▸

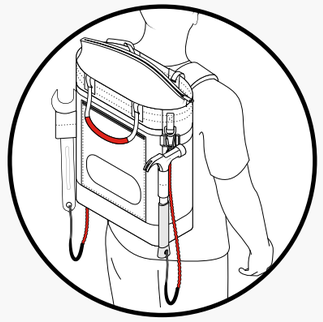

1.) Choose a tether with an appropriate load rating, length, and suitability for the task at hand.

STEP 4

T TRANSPORT ▸

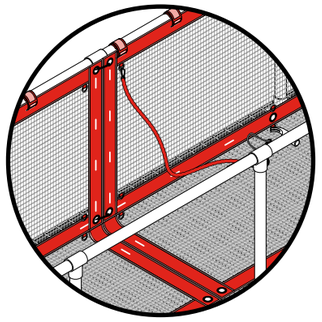

1.) Identify the methods for transporting your tools and equipment throughout the project.
2.) Keep in mind that nearly one-third of tool-related accidents happen during transportation between work areas.
3.) Utilising certified tool bags and pouches is important for minimising the risk of dropped tools on site.

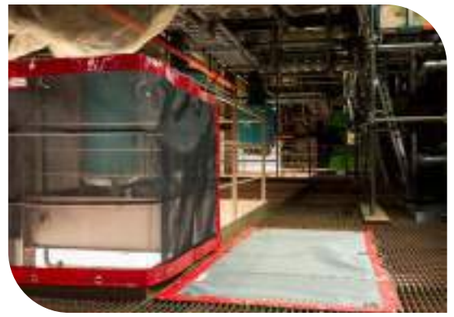

STEP 5

E ENCAPSULATE

1.) Encapsulation is the process of sealing off voids to prevent dropped objects and minimize safety hazards, ensuring that empty spaces do not pose risks to personnel or equipment.

It is important to not only buy the correct and safe equipment for you or your workers, but also ensure that everybody working at height comprehends the best practices for drop prevention.

The CATTE methodology, offers a straightforward approach to tool tethering that can be utilised by any worker.

WHAT IS ANSI/ISEA 121-2023 COMPLIANCE?

ANSI/ISEA 121-2023 COMPLIANT

The ANSI/ISEA 121-2023 standard outlines essential criteria for **"minimum design, performance, and labeling requirements for solutions aimed at reducing incidents involving dropped objects in industrial and occupational environments."**

Developed by the International Safety Equipment Association (ISEA), an ANSI-accredited standards development organisation, the U.S. national standard ANSI/ISEA 121-2023 is overseen by the American National Standards Institute (ANSI), which manages standards and conformity assessment activities within the United States.

Choosing products that conform to the ANSI/ISEA 121-2023 standard enhances confidence in product performance when working at heights, compared to those lacking this standard.

At GRIPPS® we strongly advocate selecting products that adhere to this widely recognised standard whenever feasible. We follow a rigorous testing and quality assurance/control protocol, and where applicable, ensure our products are ANSI/ISEA 121-2023 compliant.

This standard establishes minimum requirements concerning anchor attachments, tool attachments, tool tethers, and containers utilised to prevent dropped objects in the workplace.

TOOL RING

H01036 - H01038

- Quick, easy installation not requiring any special tools or equipment.
- Long lasting and economical.
- Available in three sizes.

SKU	MAX LOAD	SIZES
H01036	1 kg | 2.2 lb	19 mm | 0.75 in
H01037	1 kg | 2.2 lb	25 mm | 1 in
H01038	1 kg | 2.2 lb	38 mm | 1.5 in

SCREWLOCK CABLE

H01030 - H01033

- Easy screwlock attachment process that can be performed onsite.
- Long lasting PU-coated aircraft-grade steel cable.
- Can be locked permanently using thread locking compounds.

SKU	MAX LOAD	SIZES
H01030	1 kg | 2.2 lb	3 mm x 120 mm | 0.12 in x 4.75 in
H01031	1 kg | 2.2 lb	3 mm x 150 mm | 0.12 in x 6 in
H01032	2 kg | 4.4 lb	4 mm x 160 mm | 0.15 in x 6.25 in
H01033	2 kg | 4.4 lb	4 mm x 200 mm | 0.15 in x 7.87 in

ANSI/ISEA 121-2023 COMPLIANT

GRIPPLOCK CABLE

H01040 / H01041

- Simply press Gripplock end connectors together to create a permanent attachment point.
- Suited to many styles of hand tools.
- Long lasting PU-coated aircraft-grade steel cable.

SKU	MAX LOAD	SIZES
H01040	1 kg | 2.2 lb	3 mm x 120 mm | 0.12 in x 4.7 in
H01041	1 kg | 2.2 lb	3 mm x 150 mm | 0.12 in x 5.9 in

ANSI/ISEA 121-2023 COMPLIANT

PATENT PENDING

TOOL CATCH

H01005 / H01006

- Robust Nylon connector with welded D-ring.
- Suited to a vast array of hand tools.
- Fully certified and load-rated when used with GRIPPS® V-Gripp Tape.

SKU	MAX LOAD	SIZES
H01005	1 kg | 2.2 lb	12 mm x 55 mm | 0.4 in x 2.1 in
H01006	2.5 kg | 5.5 lb	25 mm x 90 mm | 0.9 in x 3.5 in

ANSI/ISEA 121-2023 COMPLIANT

TOOL CATCH – NON CONDUCTIVE

H01007

- Robust Nylon connector with poly D-ring.
- Easy installation process that can be done onsite.
- Ideal for use with non-conductive tools.
- Fully certified and load-rated when used with GRIPPS® V-Gripp Tape.

SKU	MAX LOAD	SIZES
H01007	1 kg | 2.2 lb	12 mm x 55 mm | 0.4 in x 2.1 in

ANSI/ISEA 121-2023 COMPLIANT

V-GRIPP TAPE

H01010

- Self-fusing tape that provides a load-rated tool connection point when used with GRIPPS® Tool Catches and GRIPPS® Tool Hitches.
- Heat resistant to 150°C / 302°F.
- Resistant to water and oil.
- Resilient and long-lasting.

SKU	LENGTH	WIDTH
H01010	2.7 m | 8 ft 10 in	25 mm | 1 in

ANSI/ISEA 121-2023 COMPLIANT

V-GRIPP TAPE & TOOL CATCH KIT

H01417

- Creates resilient and long-lasting tool connection points.
- Applicable for a wide range of hand tools such as pliers, wrenches and spaners.
- Includes GRIPPS® unique V-Gripp Tape, which is resistant to water and oil.
- Does not require additonal adhesives due to self-vulcansing V-Gripp Tape.

SKU	PART	COMPONENTS	MAX LOAD
H01417	H01005	3 x Tool Catch - 25mm x 90mm / 1 in x 3.5 in	1 kg | 2.2 lb
	H01006	3 x Tool Catch - 12mm x 55mm / 0.5 in x 2.25 in	
	H01010	V-Gripp Tape	

ANSI/ISEA 121-2023 COMPLIANT

GRIPP SHRINK

H03000 - H03005

- Provides additional protection for GRIPPS® V-Gripp Tape.
- Quickly shrinks and protects when exposed to heat.
- Resistant to abrasives.

SKU	SIZES
H03000	20 mm x 50 mm | 0.7 in x 1.9 in
H03001	25 mm x 50 mm | 1 in x 2 in
H03002	40 mm x 50 mm | 1.6 in x 2 in
H03005	50 mm x 100 mm | 2 in x 3.9 in

SWIVEL CATCH

H01021

- Connects to tools with an existing hang-hole or slot or closed handle.
- The steel connector ring includes a swivel point, providing a full 360-degree range of movement.

SKU	MAX LOAD	LENGTH
H01021	2.5 kg | 5.5 lb	13 cm | 5 in

TOOL HITCH - 16KG / 35LB

H01055

- Fast and simple application to tools with an enclosed area.
- Chokes around the enclosed handle of tools weighing up to 16kg / 35lb.
- No need for additional adhesives or equipment.
- Tactical-grade Nylon for maximum strength.

SKU	MAX LOAD	LENGTH	MAX TETHER LENGTH
H01055	16 kg | 35 lb	41 cm | 16.14 in	1.8 m | 71 in

SINGLE-ARM TOOL HITCH - 16KG / 35LB

H01056

- Ideally suited to power tools with a trigger on the handle.
- Chokes around the handle of larger tools weighing up to 16kg / 35lb.
- GRIPPS® V-Gripp Tape is used to secure the 'single-arm' in way that does not interfere with the tool trigger.
- Tactical-grade Nylon for maximum strength.

SKU	MAX LOAD	LENGTH	MAX TETHER LENGTH
H01056	16 kg | 35 lb	41 cm | 16.14 in	1.8 m | 71 in

DUAL-ARM TOOL HITCH 16KG / 35LB

H01057

- Creates a load-rated tool connection point for heavy 'open' tools.
- Tactical-grade Nylon for maximum strength.
- Heavy-duty closed metal D-ring.

SKU	MAX LOAD	LENGTH	MAX TETHER LENGTH
H01057	16 kg | 35 lb	41 cm | 16.1 in	1.8 m | 71 in

DUAL-ARM TOOL HITCH - 32KG / 71LB

H01058

- Creates a load-rated tool connection point for heavy 'open' tools up to 32kg / 71lb.
- Tactical-grade Nylon for maximum strength.
- Heavy-duty closed metal D-ring.

SKU	MAX LOAD	LENGTH	MAX TETHER LENGTH
H01058	32 kg | 71 lb	65 cm | 25.59 in	1.8 m | 71 in

PHONE GRIPPER

H02039

- Custom silicon compound made for strength and grip.
- Avoids installing a permanent connector point on your mobile phone /cellular phone.
- No additional adhesives required.
- Integrated, load-rated tether connection eyelet.
- Compatible with most smart phones.

SKU	MAX LOAD	PRODUCT NAME
H02039	0.3 kg | 0.66 lb	Phone Gripper
H02039P	0.3 kg | 0.66 lb	Phone Gripper with Coil Tether (Non-Conductive)

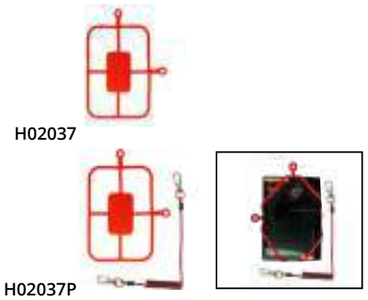

TABLET GRIPPER

H02037

- Custom silicon compound made for strength and grip.
- Avoids installing a permanent connector point on your tablet.
- No additional adhesives required.
- Integrated, load-rated tether connection eyelet.
- Compatible with most tablet devices.

SKU	MAX LOAD	PRODUCT NAME
H02037	0.85 kg | 1.9 lb	Tablet Gripper
H02037P	0.85 kg | 1.9 lb	Tablet Gripper with Coil Tether Single-Action

GRIPPTIE

H01008

The GRIPPS® GrippTie is a versatile, durable, and cost-effective tool connector that presents a breakthrough in tool tethering technology. The GrippTie is fully certified to ANSI/ISEA 121-2023 and can be attached to a vast array of hand tools rapidly and without the need for any secondary components or specialised equipment.

Purpose-built for speed and efficiency, it dramatically cuts down application time compared to traditional methods, making tool tethering faster and more convenient than ever.

- ANSI/ISEA 121-2023 compliant.
- Highly versatile and adaptable to a wide range of tools.
- Extremely fast to apply (only requiring a pair of pliers).
- Maximum load rating of 2kg/4.4lb

The GrippTie is designed for use with GRIPPS® tethers up to 1.3m / 51in.

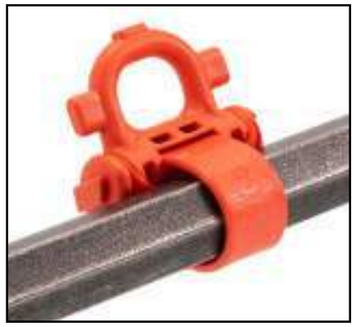

SKU	MAX LOAD	LENGTH	MAX TETHER LENGTH
H01008	2 kg | 4.4 lb	265 mm | 10.43 in	1.3 m | 51 in

ANSI/ISEA 121-2023 COMPLIANT

*Pantented

FAST, FLEXIBLE AND CERTIFIED!

H01008 - GRIPPTIE

LITTLE GRIPPER KIT

H03048

- Simple press-fit installation onto the shaft of screwdrivers, allen keys etc.
- No additional adhesives or tools required for application.
- UV-protected for long-lasting outdoor use.
- Compatible with tool shafts of many shapes and thickness.
- Made in Australia.

ANSI/ISEA 121-2023 COMPLIANT

E-CATCH

H01035

- Ready to use immediately after application.
- Cures completely in 24 hours. Flexible, notched surface adheres to curved surfaces.
- Features heavy-duty industrial-grade VHB adhesive tape.
- Connects to the GRIPPS® Electronic Tool Tether.
- Low profile that does not interfere with device functionality.

SKU	MAX LOAD
H01035	0.5 kg | 5.1 lb

GRIPPS® GLOVES TETHERED TOOLS. UNMATCHED SAFETY. EXCEPTIONAL DEXTERITY.

One dropped tool can put lives, productivity, and safety at risk. That's why GRIPPS® tether-ready gloves are trusted by professionals across industries globally to deliver reliable drop prevention. With built-in anchor points to secure tools directly to your hands, these gloves have set a new benchmark for safety when working at heights.

Experience unmatched protection and performance: freedom of movement, instant tool access, and trusted drop prevention—all in a rugged, durable design.

Engineered for real-world challenges, the GRIPPS® glove collection merges industry-leading safety compliance with exceptional dexterity and long-lasting comfort. GRIPPS® gloves create the critical connection between your tools and hands, ensuring no tool is ever out of reach.

Key Features:

- *In-built Tether Anchor Points*
- *ANSI/ISEA 121-2023 Compliant*
- *ANSI A3/A5 Cut Rated*
- *Exceptional Comfort*
- *Superior Dexterity*
- *Durable Finish*

TRANSPORT & STORAGE

MULE BAG - 80KG/176LB

H01140

The champion of the GRIPPS® lifting bag range, the GRIPPS® Mule Bag provides a broad range of transportation and work-site mounting options. The tough design, with multiple reinforcement points, makes it one of the strongest lifting bags on the global market, purpose-built to operate and last in the harshest of workplace environments.

- Width compatible with standard ladder cages.
- Reinforced backpack straps, EWP mounting straps and load-rated lifting points.
- Strong composite insert in the base of the bag protects against punctures.
- Armoured insert for protection when wearing as a backpack.
- Load-rated heavy-tool sleeves on both sides of the bag.
- Tether points inside and outside the bag for multiple tethering options.
- Multiple compartments inside the bag for tool storage and organisation.
- Dry document storage pocket.
- Unique Serial number for product identification.
- Business card holder.

BULL BAG - 113KG/249LB

H01110

Arguably the most robust lifting bag in the world, the GRIPPS® Bull Bag stands out with its reinforced design. Enhancing usability, the bag features a translucent Nylon TPU-coated top closure, complete with a secure zip with an auto-locking zip slider, allowing ample light to illuminate the contents within its vibrant red interior. The GRIPPS® Bull Bag boasts load-rated reinforced lifting straps, several built-in tether anchor points and a load-rated aluminium carabiner for securing the bag when working at height.

- Secure zip closure with auto-locking T-handle zip slider.
- Heavy-duty dual layer UV stabilised 2000 denier poly PVC with red interior.
- Integrated tether anchor points inside the bucket enable tools to be securely tethered to the interior of each bag.
- Reinforced rim around the bag opening ensures protection against potential damage.
- Dual-action aluminium carabiner for securing the bag when using it at height.
- Rubber feet not only shield the bag's base but also provide stabilisation on hard surfaces.
- Unique Serial number for product identification.
- Business card holder.

GRIPPS TETHERING STATION - 20T - 1KG/2.2LB

H01147

The GRIPPS® Tethering Station, known as the GTS-20T, is a versatile mobile workstation designed for various environments. Crafted from an exceptionally durable 26oz. canvas, the station minimises the use of metals and features non-conductive tether anchors.

For tasks performed at elevated heights, secure the GRIPPS® Tethering Station to scaffold tubes, handrails, or elevated working platform (EWP) cages using the load-rated and resilient straps. Reinforced eyelets enable flexible hanging with hooks or securing with rope, accommodating a wide range of environments.

- Organises and tethers up to 20 tools.
- Mounting straps are compatible with EWP cages, scaffold tubing, and handrails.
- Reinforced stiff backing creates a stable workstation.
- Extra heavy-duty 26oz. canvas.
- Perimeter eyelets for adding extra security when suspended.

THE DROP BOX

H01409

The GRIPPS® Drop Box offers a complete turn-key solution, fully supporting your worksite drop prevention policy while ensuring all site workers have immediate access to a comprehensive range of drop tool prevention equipment.

With the capability to tether up to 300 tools/devices, it provides a vast selection of flexible connection, tethering, and anchoring options.

Additionally, onsite training in the utilisation of the equipment and best practices is included.

- Lockable keyed doors with 3 locking points.
- Sliding drawer and fixed height work bench.
- Pegboard panel for hooks.
- Louvred panel for plastic tubs.
- Quality durable powder coat finish.

H02032	Battery Catch Holster - 4.5kg / 10lb	1

GAP WRAP

H06010 - H06012

The GRIPPS® Gap Wrap is a unique encapsulation device that prevents objects from being dropped accidentally within work site voids. The mesh of the GRIPPS® Gap Wrap encases pipes from 2" to 36" in diameter and uses heavy-duty Velcro strips to tighten the opening to tubes. Enhanced security can be attained by weaving ties through the numerous stainless-steel eyelets. The Gap Wrap includes a coated Poly PVC mesh, a feature also present in GRIPPS® Gap Mats.

These innovative safety devices feature a robust design with a vibrant red PVC edge binding, providing both strength and a clear visual warning for onsite workers. Easily fasten the GRIPPS® Gap Mats to the flooring using screws or zip ties through the conveniently placed corner eyelets.

- Constructed from fire retardant material.
- Red PVC edge binding for strength and visual warning.
- Coated Poly PVC meshing (as used in GRIPPS® Fire retardant (FR) Dropped Object Prevention Mat).
- Red PVC edge binding for strength and visual warning.

GAP MAT

H06030-CUSTOM

The GRIPPS® Gap Mat stands out as a robust and fire-retardant drop-prevention solution equipped with dedicated anchor points for tethering. Featuring six D-rings spread across the mat, users can effortlessly secure tools or equipment. To ensure a secure fit on grid mesh, the GRIPPS® Gap Mat can be easily fastened using cable ties (or similar ties), using its 22 strategically positioned eyelets around the edges.

This innovative mat allows workers to work on grid mesh platforms, providing protection against tools and equipment slipping through the grating. Thanks to its highly durable mesh, the GRIPPS® Gap Mat is reusable, offering long-lasting performance.

- Re-use from job-to-job.
- Constructed from fire retardant material.
- Dual-purpose.
- High visibility.
- Custom sizing only.

SKU	DIMENSIONS
H06030 - Custom	Custom Sizing only

CUSTOM SIZE MAT ORDERS AVAILABLE

GAP GUARD

H06035

The GRIPPS® Gap Guard is an exceptional modular solution for preventing drops around handrails and grid mesh flooring. Highly flexible, durable, and reusable, these mats provide workers with a rapid solution to safeguarding work areas from drops. The GRIPPS® Gap Guard boasts a modular design with Velcro edging, which enables the seamless attachment of multiple mats end-to-end along handrails or in grid formations, effectively covering expansive flooring areas. With six 2.5kg load-rated D-rings and fire-retardant material, these mats are a sound solution for workers at heights in industrial surroundings.

- Anchor points load-rated to 2.5kg (ensure the mat is attached secuerly).
- Constructed from fire retardant material, as seen in the GRIPPS® Gap Wrap range.
- Robust hard-wearing GRIPPS® matting material.
- Modular design with Velcro edging allows the mats to be attached together end-to-end along a handrail or in a grid formation, covering a large area of flooring.
- Mountable on webbing strap too.

SKU	MAX LOAD (D-RING)	MAX TETHER LENGTH	DIMENSIONS
H06035	2.5 kg | 5.5 lb	1.3 m | 51 in	2.5 m x 1 m | 98 in x 39 in

MATGRIPP TAPE

H06050

MatGripp Tape facilitates the seamless connection of individual matting rolls, eliminating potential trip hazards. It offers the flexibility to customise matting for intricate areas that may require cutting to precise dimensions. Unlike other tapes, MatGripp Tape adheres exceptionally well to matting due to its specialised Butyl rubber composition.

- Strong adhesion and durability.
- Indoor and outdoor suitability.
- Compatible with GrippGrid Matting and the GRIPPClip.

SKU	LENGTH	WIDTH
H06050	5 m | 16.4 ft	50 mm | 2 in

GRIPPCLIP

H06055

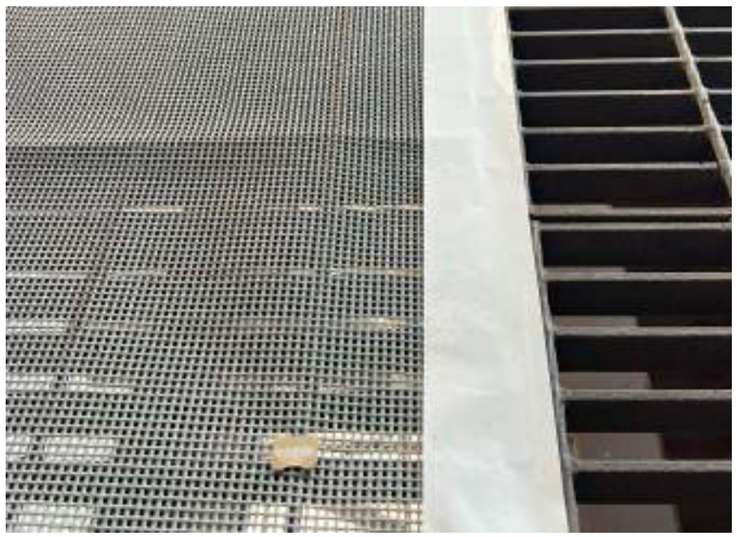

The innovative GRIPPClip, manufactured from stainless steel, is the quickest and most effective method of fixing down matting to steel grate flooring.

By simply pushing the GRIPPClip through the holes in the matting, and clipping it to the cross rods below, matting and encapsulation products will be secured. To remove, simply pull the matting or encapsulation product straight up, or insert a flat screwdriver under the GRIPPClip to lift it up.

- Speeds up the process of applying matting and encapsulation products.
- Attaches GrippGrid matting to the “cross rods” of steel grating floors.
- Made of stainless steel.

SKU	DIMENSIONS	QTY
H06055	2.5 cm x 1.5 cm x 1.5 cm | 0.98 in x 0.59 in x 0.59 in	100

GRIPPGRID - FR GRID MESH MATTING

H01316 / H01317

GrippGrid is a robust and reusable matting solution specifically designed to mitigate the risk of dropped or falling objects by securely enclosing grid mesh platforms.

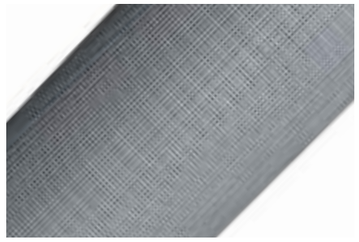

Tailored for all elevated tasks performed on grid mesh platforms, GrippGrid offers an economical drop matting alternative that can be used multiple times.

In contrast to expensive and environmentally harmful disposable items such as shade cloths, GrippGrid matting stands out as a sustainable choice, providing long-lasting use without compromising on performance.

GrippGrid matting is both fire retardant and reusable, making it the only choice for projects involving grid mesh platforms.

SKU	WEIGHT	DIMENSIONS	COLOUR
H01316	430 g/m²	1.87 m x 26 m | 6 ft x 85 ft	Grey
H01317	530 G/M²	1.87 m x 25 m | 6 ft x 82 ft	Grey

MODULAR DROP MAT

H01307

The GRIPPS® Modular Drop Mat is crafted from robust, self-extinguishing canvas, providing a secure personal work space for tasks carried out on grid mesh or steel grate flooring.

Grid mesh and steel grate flooring pose significant risks for dropped object incidents. The GRIPPS® Modular Drop Mat effectively addresses this concern by enabling workers to perform various tasks without the worry of small objects slipping through the mesh.

Strategically placed, load-rated tether anchor points enable workers to tether tools weighing up to 3kg/6.6lbs to the mat. Velcro knee pads enhance practicality and comfort, and they can be easily repositioned and reattached to the drop mat, adapting to diverse work environments.

The raised edges of the mat prevent tools and objects from rolling off, and a reinforced zipper along each side facilitates the connection of multiple GRIPPS® Modular Drop Mats for expanded coverage.

- Heavy-duty 26oz. self-extinguishing canvas.
- Moveable Velcro kneeling pads.
- Eight load-rated D-rings for tethering tools.
- Zips on each side allow you to attach an unlimited number of Drop Mats to each other.
- Folds up and attaches directly the to GRIPPS® Mule Bag through purpose-made carabiners.

PATENT PENDING

GRIPPS® "STOP THE DROPS" CAMPAIGN PACK

H05022

Globally, dropped objects persist as a significant issue and pose a critical risk to workers in industrial worksites. In response, GRIPPS® developed the "Stop The Drops Campaign Pack" to enhance safety awareness, focusing specifically on tool tethering and dropped object prevention.

This comprehensive campaign kit offers a variety of resources to facilitate the implementation of an effective safety campaign within worksites. It includes posters, mandatory signage for tool tethering, 20 insulated water bottle/spray can holsters (ideal for incentives), as well as pens and checklists for workers.

Moreover, the pack contains informative tool tethering introductory induction videos, suitable for showcasing to all employees. These videos cover essential topics such as:

- Risk awareness.
- ANSI/ISEA 121-2018 Standards.
- GRIPPS® CATTE Methodology.
- Best practices of tool tethering.
- Tool tethering legislation.

SHIFTER - 10”

D28313

- Xtra opening in sizes 6” - 12”.
- Up to 25% Xtra capacity.
- Longer jaws.
- Four thread knurl.
- Chrome Vanadium steel.
- Non-protruding jaw shank at maximum opening.
- Designed hole for applying tethers.
- Made in Spain.

SKU	MAX LOAD (D-RING)
D28313	0.5 kg | 1.1 lb

OX CLAW HAMMER - 20oz

D13001

Crafted from high-quality steel, this hammer ensures exceptional durability, making it a reliable companion for various tasks. Its precision-balanced, one-piece steel construction guarantees optimum balance and control, allowing for accurate strikes every time. The hammer features a straight claw design, ideal for various applications. The non-slip Ox grip handle with shock reduction provides a comfortable yet secure grip, reducing hand strain during prolonged use.

- Non-slip Ox grip handle with shock reduction.
- Crafted from high-quality steel.
- Straight claw ending.

SKU	SIZE	LENGTH
D13001	20 oz	355 mm | 14 in

STABILA MAGNETIC SCAFFOLDERS LEVEL

D17010

The 81SM-25-H Stabila Magnetic Torpedo Level is the epitome of German precision and durability. Crafted from sturdy cast aluminium, this compact level features large, easy-to-read vials for accurate measurements in any position. Its trapezoidal profile offers an optimal grip, making it ideal for cramped spaces.

- 250mm solid aluminium construction.
- Heavy-duty industrial magnets.
- Normal position accuracy ±0.5mm/m.
- Made in Germany.

SKU	LENGTH
D17010	250 mm | 9.8 in

SCAFFOLDERS TAPE MEASURE

D25010

This tape measure boasts SuperBlade technology, ensuring an extended standout for effortless long-distance measurements. Its double-sided blade printing features clear metric millimetre markings, allowing for accurate readings. The high-impact resistant ABS casing, coupled with a non-slip grip, guarantees sturdy handling. Equipped with a strong end hook to maintain true zero, reinforced 4 rivet dual-hook with magnet, and a wide blade, this tape measure is engineered for reliability.

- Powerful magnetic end hook with four rivets.
- Abrasion-resistant blade and mechanism.
- High-impact ABS case.
